## Summary

MCA student at Lovely Professional University with hands-on experience in frontend development and building responsive web applications. Experienced with HTML, CSS, JavaScript, React.js, Bootstrap and Tailwind CSS, with practical knowledge of Node.js, Express.js, REST API integration, and Git/GitHub. Enjoy solving development problems, debugging applications, and building user-focused web solutions, with a strong interest in backend development and scalable software systems.

## Education

**Lovely Professional University** — Jalandhar
*MCA (Computers), CGPA: 7.90, Expected Graduation: 2027* — *Post-Graduation*

**Lucknow University** — Lucknow
*B.A (Mathematics)* — *Graduation*

**CISCE (ICSE/ISC)**
*Class XII, SCORE: 82.4%* — *2021*

**CISCE (ICSE/ISC)**
*Class X, SCORE:74.8%* — *2019*

## Technical Skills

**Programming Languages**: Java, JavaScript
**Frontend Technologies**: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Responsive Web Design
**Backend Technologies**: Node.js, Express.js, REST APIs, API Integration
**Database**: MongoDB, Database Design Fundamentals
**Tools/Version Control**: Git, GitHub, Visual Studio Code
**Core Concepts**:Object-Oriented Programming (OOP), Data Structures and Algorithms, DBMS, Debugging

## Experience

**Frontend Development Intern** — May 2025 – June 2025
*Collegetips*

- Developed responsive web applications using HTML, CSS, and JavaScript following software development best practices.
- Integrated APIs and handled asynchronous data processing for dynamic functionality.
- Collaborated with team members using Git and version control workflows.
- Debugged and optimized application performance to improve user experience.
- Built reusable components and participated in project reviews and testing.

## Projects

**CivicConnect** | *React.js, Node.js, Express.js, Tailwind CSS, Supabase* | GitHub | Live Demo — 2026

- Developed a responsive civic issue management website using React.js and Tailwind CSS.
- Built backend functionality using Node.js and Express.js to handle application requests and server-side logic.
- Integrated Supabase to store and manage application data.
- Designed a responsive user interface for desktop, tablet, and mobile screens.

**Weather App** | *HTML, CSS, JavaScript, REST API* | GitHub | Live Demo — Apr 2026

- Built a real-time weather application using REST API integration and asynchronous data handling.
- Implemented Fetch API to process and display weather information dynamically.
- Designed responsive UI and optimized application performance.

**Little Sprouts Nursery** | *HTML, CSS, JavaScript* | GitHub | Live Demo — 2026

- Developed a responsive nursery website with a colorful, child-friendly and nature-inspired UI.

– Implemented structured sections for nursery activities, gallery, indoor/outdoor plants, and contact information.

**EatIt** | *HTML, CSS, JavaScript* | GitHub | Live Demo 2026

– Developed a responsive food-related website with a user-friendly interface and structured navigation.
– Designed and organized website sections to provide a consistent experience across different screen sizes.
– Implemented interactive functionality using JavaScript, where applicable.

## Additional Information

Location: Lucknow

Languages: English, Hindi
