Raj Kumar Shukla

+91-8931095550 | rajkumarshukla050012@gmail.com

Summary

MCA student with strong foundations in Java, JavaScript, SQL, Data Structures, and Software Development. Skilled in API integration, debugging, problem-solving, and building scalable web applications. Passionate about Backend Development, REST APIs, Database Management, and System Design.

Education

Lovely Professional University — Jalandhar
MCA (Computers), CGPA: 7.77 — *Post-Graduation*

Lucknow University — Lucknow
B.A (Mathematics) — *Graduation*

CISCE (ICSE/ISC)
Class XII, SCORE: 82.4% — *2021*

CISCE (ICSE/ISC)
Class X, SCORE:74.8% — *2019*

Experience

Frontend Development Intern — May 2025 – June 2025
Collegetips

- Developed responsive web applications using HTML, CSS, and JavaScript following software development best practices.
- Integrated APIs and handled asynchronous data processing for dynamic functionality.
- Collaborated with team members using Git and version control workflows.
- Debugged and optimized application performance to improve user experience.
- Built reusable components and participated in project reviews and testing.

Projects

Weather App | *HTML, CSS, JavaScript, REST API* — Apr 2026

- Built a real-time weather application using REST API integration and asynchronous data handling.
- Implemented Fetch API to process and display weather information dynamically.
- Designed responsive UI and optimized application performance.

Chatbot Application | *JavaScript* — Jun 2025

- Developed an interactive chatbot capable of handling user queries through event-driven logic.
- Implemented modular code structure and improved application maintainability.

Amazon Clone | *HTML, CSS* — Jan 2025

- Developed a responsive e-commerce interface replicating key Amazon functionalities.
- Applied UI optimization and component-based development practices.

Technical Skills

Languages: Java, JavaScript, C++, Node.js
Backend: REST APIs, API Integration, Backend Development Fundamentals, Authentication Concepts
Database: SQL, Database Design Fundamentals
Web Technologies: HTML, CSS, React.js
Tools: Git, GitHub, VS Code
Core Concepts: OOP, DBMS, Data Structures & Algorithms, Software Engineering, System Design Fundamentals

Additional Information

Location: Lucknow

Languages: English, Hindi
